

VULTURE **WIRE PICKER**

Maximize your cash flow from your auto scrapping and recycling operations

The SAS Vulture pins directly to your excavator stick, quick coupler or pin grabber. The Vulture operation and rotate function operate off one hydraulic feed.

**Fast &
Simple
Installation**

The beak style pinchers on the SAS Vulture rip open dashes, rocker panels and expose wire harness. Clamp surface is designed to maximize wire extraction without cutting. The hydraulic cylinder is protected to minimize potential damage.

**Built For
Optimum
Performance**

**ENGINEERED
TOUGH**

Specifications

Recover more pounds of precious metals: copper wiring, radiators, heater core, aluminum condensers, a/c evaporators, dash supports, transmissions, electric motors in window, wiper, seat and blower motors.

Specification	Unit	Vulture
Excavator/Backhoe Weight	tons	6-10
Unit Weight	lbs	680
Max Height	inch	53
Max Jaw Open Inside	inch	17.7
Max Jaw Open Outside	inch	33
Integrated Diverter Valve System	-	yes
Hyd. Flow Max	gpm	15
Hyd. Press Max	psi	3,500
